RIGHT									YOUR HEIGHT
LEFT									YOUR WEIGHT

ADD FOR DROP

Measured Over Breeches/Clothing ....❑
Measured Over Bare Leg ....❑

We prefer measurements be taken over clothing to be worn with the footwear. If not indicated, we will assume measurements and outlines are taken over clothing. All footwear will be made to the measurements submitted. In the event of **Bare Leg** measures, ½ Inch will be added.
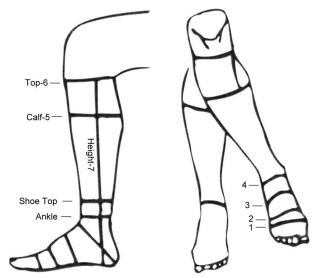

MEASURING INSTRUCTIONS

All measurements are to be taken while seated by someone other than yourself. Have your leg crossed over your other knee for circumference measurements 1 thru 4. For circumference measurement 6 place feet flat on floor.

For **Height** on boots, take measure 7 up the inside of the leg to where you want the boots to rest after break-in. Then add ¾" for drop.
Equestrian boots, add 1" for drop.
Take **Boot Top** measure at the **Height** you want the boot. IE, take the **Boot Top** measure at your Ht measurement 7.
FOOT OUTLINES are to be taken while standing with equal weight on both feet, on this form. Draw the outlines holding the pencil perpendicular.
